Product Information:

Curved fiber flap disc

High performance, extremely aggressive ceramic disc with the highest grinding speed in the line.

Designed for metalworkers to be as fast and efficient as possible without overheating on steel and stainless steel.

Polyester flaps to resist edges and high pressure in extremely intensive use.

The convex shape of the support allows working on an angle of 15° to 25° while maintaining a good sanding surface

Applications: steels, special steels, stainless steel, cast iron, aluminum and non-ferrous metals.

Abrasive: High performance ceramic

Used mainly on high power grinders.

ULTRA DL CR

(Ref. 11055101)

Sanding down steels, special steels, stainless steels, cast iron, aluminium and non-ferrous metals

Usage extrême

Norm: EN13743

Technical characteristics:

Height (cm) : 1.00

Width (cm) : 12.50

Length (cm) : 12.50

Net weight (Kg) : 0.09

For machine Grinder

Diameter D (mm)

Bore (mm) 22.23

Max. speed (rpm) 12 200

Speed (m/s)
